For Immediate Release:

Public Meeting Notice

Water Quality and Watersheds in and around Twin and Pine Lakes

Come and learn about water quality and the watersheds in and around Pine Lake and Twin Lake at the upcoming lake management planning session! Professionals from UW-Stevens Point and Waushara County Land Conservation will be present to provide study results and recommendations for the water quality in each lake. Survey results will be discussed and goals, objectives, and actions will be identified by those who attend the meeting. All are welcome to attend! This session will take place on October 14, 2014 at 6:00 p.m. in Nevitt Lodge at Camp Twin Lakes (Bay-Lakes Council Boy Scouts) located in Waupaca at N7104 County Road K.

All Pine and Twin Lake enthusiasts are encouraged to complete a third survey about the lake(s) they most often frequent, even if they have not taken any of the previous surveys. This survey will collect information about lake users’ opinions and experience with land use and water quality in and around the lakes. Survey results will be used during the discussions and the planning process. The link to the online survey for Pine Lake is https://www.surveymonkey.com/s/PineLakeS3. The link to the online survey for Twin Lake is https://www.surveymonkey.com/s/TwinLake3.

If you would prefer to receive a paper copy of the survey, please contact Waushara County Extension agent Patrick Nehring at partrick.nehring@ces.uwex.edu or (920) 787-0416.

Information about the meetings, presentations, and plan drafts can be found at the Waushara County website as they are developed: http://www.co.waushara.wi.us/. Hover over the Departments tab, then Zoning and Land Conservation, Land Conservation, and finally click on Lake Management Planning. For additional information, “like” the Facebook page “Waushara County Lakes Project” or contact the Waushara County Lakes Project at 715-346-2497 or wclakes@uwsp.edu.
