Medicare Part B and Medicaid pay for the flu shots. Bring all the insurance cards you take to your physician’s office with you. Children’s vaccine is free for all children that now can be served by Public Health Department due to the new 317 rule that was enacted in last year. We can serve those with MA, underinsured, Native American or Native Alaskan.

For all other people desiring the flu shot the cost is $36.00. Waushara County Public Health also provides Pneumococcal vaccine to people 65 or older or those with chronic illness that puts them at greater risk for fatal pneumococcal infections. Call today for an appointment for clinics at the Wautoma Office. Call 920-787-6590. For the flu clinics in the outlying communities no appointment is needed.
