**AHA Heartsaver CPR& AED**

**Description:** *The Heartsaver course is a modular course that teaches general public and lay rescuers how to recognize and treat life-threatening emergencies, including cardiac arrest choking for adult, child, and infant victims. Participants also learn to recognize the warning signs of heart attack and stroke in adults and breathing difficulties in children. Extensive classroom instruction and practice on mannequins is covered. An emphasis is placed on recognition and assessment using the Airway (A), Breathing (B), and Circulation (C) technique. The program includes CPR for Adults, Children, and Infants. This course also includes a section for Automated External Defibrillator (AED).*

*Upon successful completion, participants receive an American Heart Association Heartsaver card valid for 2 years.*

**Test:** Skills check-off

**Who is this class for:** General Public and All Lay Rescuers, such as employees in the workplace, daycare employees, babysitters, firefighters, police, airline personnel, security guards, camp counselors, bus drivers, life-guards, etc.

**Length of class:** 3 hours

**Pre-requisite:** None
