WAUSHARA COUNTY HIGHWAY DEPARTMENT
UTILITY ACCOMMODATION POLICY
ADDENDUM

For Installation of Irrigation Pipe across County Trunk Highways

**General:** This policy will assure protection of the highway and the right-of-way when irrigation facilities cross County Trunk Highways.

**Purpose:** To protect the highway and surrounding right-of-ways and to assure the safety and convenience of the traveling public.

**Requirements:** The Waushara County Highway Department will require any irrigation pipe or other similar facility to be encased in a culvert pipe or comparable protection as approved by the Highway Commissioner or his or her designee. This will require a permit and standard permit fees apply. No irrigation pipe shall be placed in an existing culvert pipe which its original installation was for another purpose. The Waushara County Highway Department will do all the work within its right-of-way at the expense of the permittee.

This policy will take effect immediately upon adoption by the Public Works Board.
