Your Financial Checklist

In this struggling economy, you may have found yourself among many in the community facing the loss of a job, reduced hours, and/or financial trouble. This guide is intended to help you answer the question "Now what?" Many organizations in the Waushara County area exist to help you, whether it's managing your finances, discount or free health services, food, clothing, shelter, or other services.

**Evaluating your finances: Reduced income is going to require expert money management.
This checklist will help you get started.**

Determine your financial resources.

Savings, pension or profit sharing, thrift plan, stocks, cash values of life insurance, unemployment compensation, severance pay, spouse's income, medical benefits, etc.

Plan a realistic budget.

Keep a record of your family's expenses: electric bills, water bills, heating bills, mortgage or rent, car payments, insurance, medical bills, and grocery costs. Make sure that the total of the bills are not greater than the available income. Set up a plan which allows for basic needs: food, shelter, clothing, and medical care. Be sure to include anticipated expenses, like quarterly insurance premiums and holiday spending, etc.

Stop all use of credit.

Don't make purchases on credit if you can avoid it. This will save interest charges. Order a free credit report at: www.annualcreditreport.com or (877) 322-8228.

Protect yourself.

Alert others about your economic situation.

Explore ways to increase your income.

Check if you're eligible for tax credits, or benefits that you might qualify for if your income has dropped. Consider dropping or decreasing benefit contributions. Consider selling assets, personal items, investments, or property to help you come up with cash to pay down debt.

You should notify:

1. Your mortgage holder or your landlord.

Let them know in person if you cannot meet payment. A personal visit is suggested. Request postponement until income resumes. If you have FHA or Veteran's Insured Mortgage, ask for emergency forbearance (an emergency relief program to avoid foreclosure). With a landlord, discuss ways to work off your obligation, if possible.

2. Utilities.

(Phone, water, gas, electric). Tell them as soon as possible to show good faith. Make some payment, even if it is not the full amount due! Reduce service as much as you can.

3. Any creditor.

(Car, furniture, credit cards, etc.) Try to set up an alternative payment plan and/or try to return collateral items

(jewelry, furniture, etc.) to reduce debts. Keep full records of these transactions, including the name of the firm,

person you spoke with, phone numbers, and account of what you agreed on, and the date. Make one copy for

your file and file one with them, for their records.

Set priorities.

If your income does not cover all your bills, be sure to pay the following first, in this order: Rent, Utilities, Food, and Transportation.

Cancel unnecessary purchases/services.

This includes cable TV, subscription renewals, etc.

Consider refinancing.

Refinancing or renegotiating loans will help lower your fixed expenses (bank or credit union loans, car payments, mortgage).

File for Unemployment Insurance.

File online at: www.dwd.wisconsin.gov/uiben/ For assistance (414) 435-7069

Ways to Save Tip Sheet

Reduce your water bill

- ◆ Take shorter showers. Just by taking a few minutes off every shower will save you money.
- ◆ Set a timer. Installing a low flow shower head can make a difference here as well. Do not take baths.
- ◆ Turn off the water while brushing your teeth, or while washing your face. You can waste over two gallons of water each minute!
- ◆ Reduce your toilet's water consumption. Place a brick or a drink bottle filled with water into your toilet tank.
- ◆ Wash small loads of clothes. It is better to wash three small loads than two large loads.
- ◆ Check for water leaks and drips.
- ◆ Let nature water your plants. Use a rain barrel to hoard as much water as you can and use this to water your plants, both indoor and outdoor. You will also reduce your water use by watering outdoor plants at dawn and dusk.
- ◆ While warming up your sink/tub's hot water, catch and use the cold water that comes out, instead of letting it go down the drain. Place a water jug or other container under the spout of the sink and then turn on the hot water. Catch all of the water that comes out until the water gets hot. Store the container of water in your refrigerator and use it for things like drinking, filling up pet bowls, watering flowers, making coffee or tea, etc.

Lower your electric bill

- ◆ Check your home's furnace ducts in each room. Make sure that there is nothing obstructing the vents such as long drapes or furniture.
- ◆ Replace your incandescent light bulbs with more energy efficient fluorescent bulbs. You do not have to fill every spot with a light bulb. For a fixture that can take four bulbs, try only using two for savings.
- ◆ Unplug your charging units when you are not using them. Studies show that when chargers for cell phones, game consoles, and radios are plugged in to the outlet, it continues to draw electricity even if the item is not connected.
- ◆ Check your windows for drafts. Clean and re-caulk around the windows when you notice the old caulk beginning to wear, or cover windows with clear plastic.
- ◆ Check outlets located on the home's exterior walls. If you feel a slight draft coming through the outlet you can purchase rubber weatherproofing seals to be installed between the wall and the outlet plate to seal it more effectively.
- ◆ Make it a habit to routinely clean under your refrigerator. Accumulating dust will cause the compressor to work Overtime.
- ◆ Make sure the weather stripping around your front door, as well as all of your exterior doors, is in good shape. If not, replace it.
- ◆ Remember, for every degree you lower your temperature in winter, or raise it in the summer, you will save two to three percent in your energy costs.
- ◆ Help save your electricity bill in the summer by installing ceiling fans and cutting down on your air conditioning use.
- ◆ Turn off computers and TVs when not in use.
- ◆ Get a hot water heater "jacket." Consider turning down the temperature on your hot water heater or purchase a "tank less" water heater, which uses less energy than the standard models.
- ◆ Use a clothes line.

Ways to Save Tip Sheet (cont'd)

Lower your electric bill (Continued)

- ◆ Turn the lights off.
- ◆ Dry your clothing in the evening when the temperature is cooler.
- ◆ Use cold water to wash your clothes as opposed to hot.
- ◆ Cook on the grill.

Save money on groceries

- ◆ Plan your meals.
- ◆ Use a list to shop, but know when to stray from the list. Using a list will help reduce those impulse buys of items you don't really need. Don't overlook items that are exceptional bargains. Consider swapping items on your list.
- ◆ Meats - buy the family pack and get multiple meals out of it. Freeze the meat to keep longer.
- ◆ The most expensive items tend to be in the easiest spots. Before you grab that item on the end cap or the shelf at eye level, look in the lower shelves first. You might find a cheaper brand there.
- ◆ Know what items you are short of. You can avoid "associated purchases" if you know what you have on hand.
- ◆ Use coupons. Shop on —Double Coupon Days!!.
- ◆ Buy in bulk when an item is on sale. Know your prices before buying in bulk.
- ◆ If you shop with children, do not give in to their whims! Use your list and tell them you need to buy only those items.

Decrease household and clothing expenses

- ◆ Shop at thrift stores, consignment shops and garage sales.
- ◆ Purchase only what you need and will use.
- ◆ Sell clothing or items that you have not used in the past year. If you are keeping them for sentimental reasons, take a picture of the item to remember it by.

Extra savings ideas

- ◆ Buy in bulk when there's a sale. Buy only items that you need and will use. It may cost more initially, but in the long run you save a lot.
- ◆ Never pay full price. Buy extra groceries when they're on sale, only if you will use them. Stock up on buy-one-get one-free items.
- ◆ Take a lunch to work instead of buying it from a fast food place.
- ◆ Save all of your loose change in a jar.
- ◆ Recycle - crushed cans and aluminum foil will bring in some extra cash.

Aging and Disability

The Aging and Disability Resource Center

920-787-6505
or 877-883-5378

209 S St Marie St - Wautoma
